Join Us

Membership: The Texas Riparian Association is an all-volunteer, nonprofit organization dedicated to encouraging healthy riparian systems in Texas. The TRA's efforts in education, research and healthy watershed management are possible largely through funds provided by members like you. Please consider joining us or renewing your membership today. Thank you for your support!

Mission Statement

The Texas Riparian Association's mission is to improve and enhance the health of water quality and quantity in Texas's streams, by encouraging sustainable and balanced riparian ecosystems for the people and the environment of Texas through the exchange of knowledge and expertise, and the dissemination of information.

The Texas Riparian Association is a statewide organization dedicated to improving the quality of life in Texas communities, by promoting an appreciation of the benefits of healthy rivers. TRA pursues its mission by identifying and filling information needs, and by communicating with professionals in the field of land and water conservation, public officials, landowners, academia, and the people of Texas.

To accomplish this mission, we have three organizational goals:

- **Education Goal:** To promote statewide education on the health of riparian systems.
- **Riparian Management Goal:** To promote actions statewide that conserve, restore, and maintain healthy riparian systems.
- **Research and Demonstration Goal:** To promote research and demonstration projects that foster improved systems.

Texas Riparian Listserv

The Riparian Listserv is a service of the Texas A&M University, created to encourage the exchange of information on riparian issues among the citizens of Texas. You do not need to be a member of TRA to subscribe. Notices about recent riparian research, conferences, training, and activities are posted daily, along with discussions on riparian related information and issues. TRA member business is generally conducted through a membership list.

Subscribe

To subscribe to the Riparian Listserv, go to <http://nrt.tamu.edu/courses/texas-riparian/> and enter your email to subscribe.

Unsubscribe

To remove yourself from the Riparian listserv, go to the same website and unsubscribe
